Your brand, as big as your growth.

A MESSAGE FROM BRENO CÔRTES ROMÃO

A brand is not what a company says about itself. It is what stays in people's minds after you leave the room.

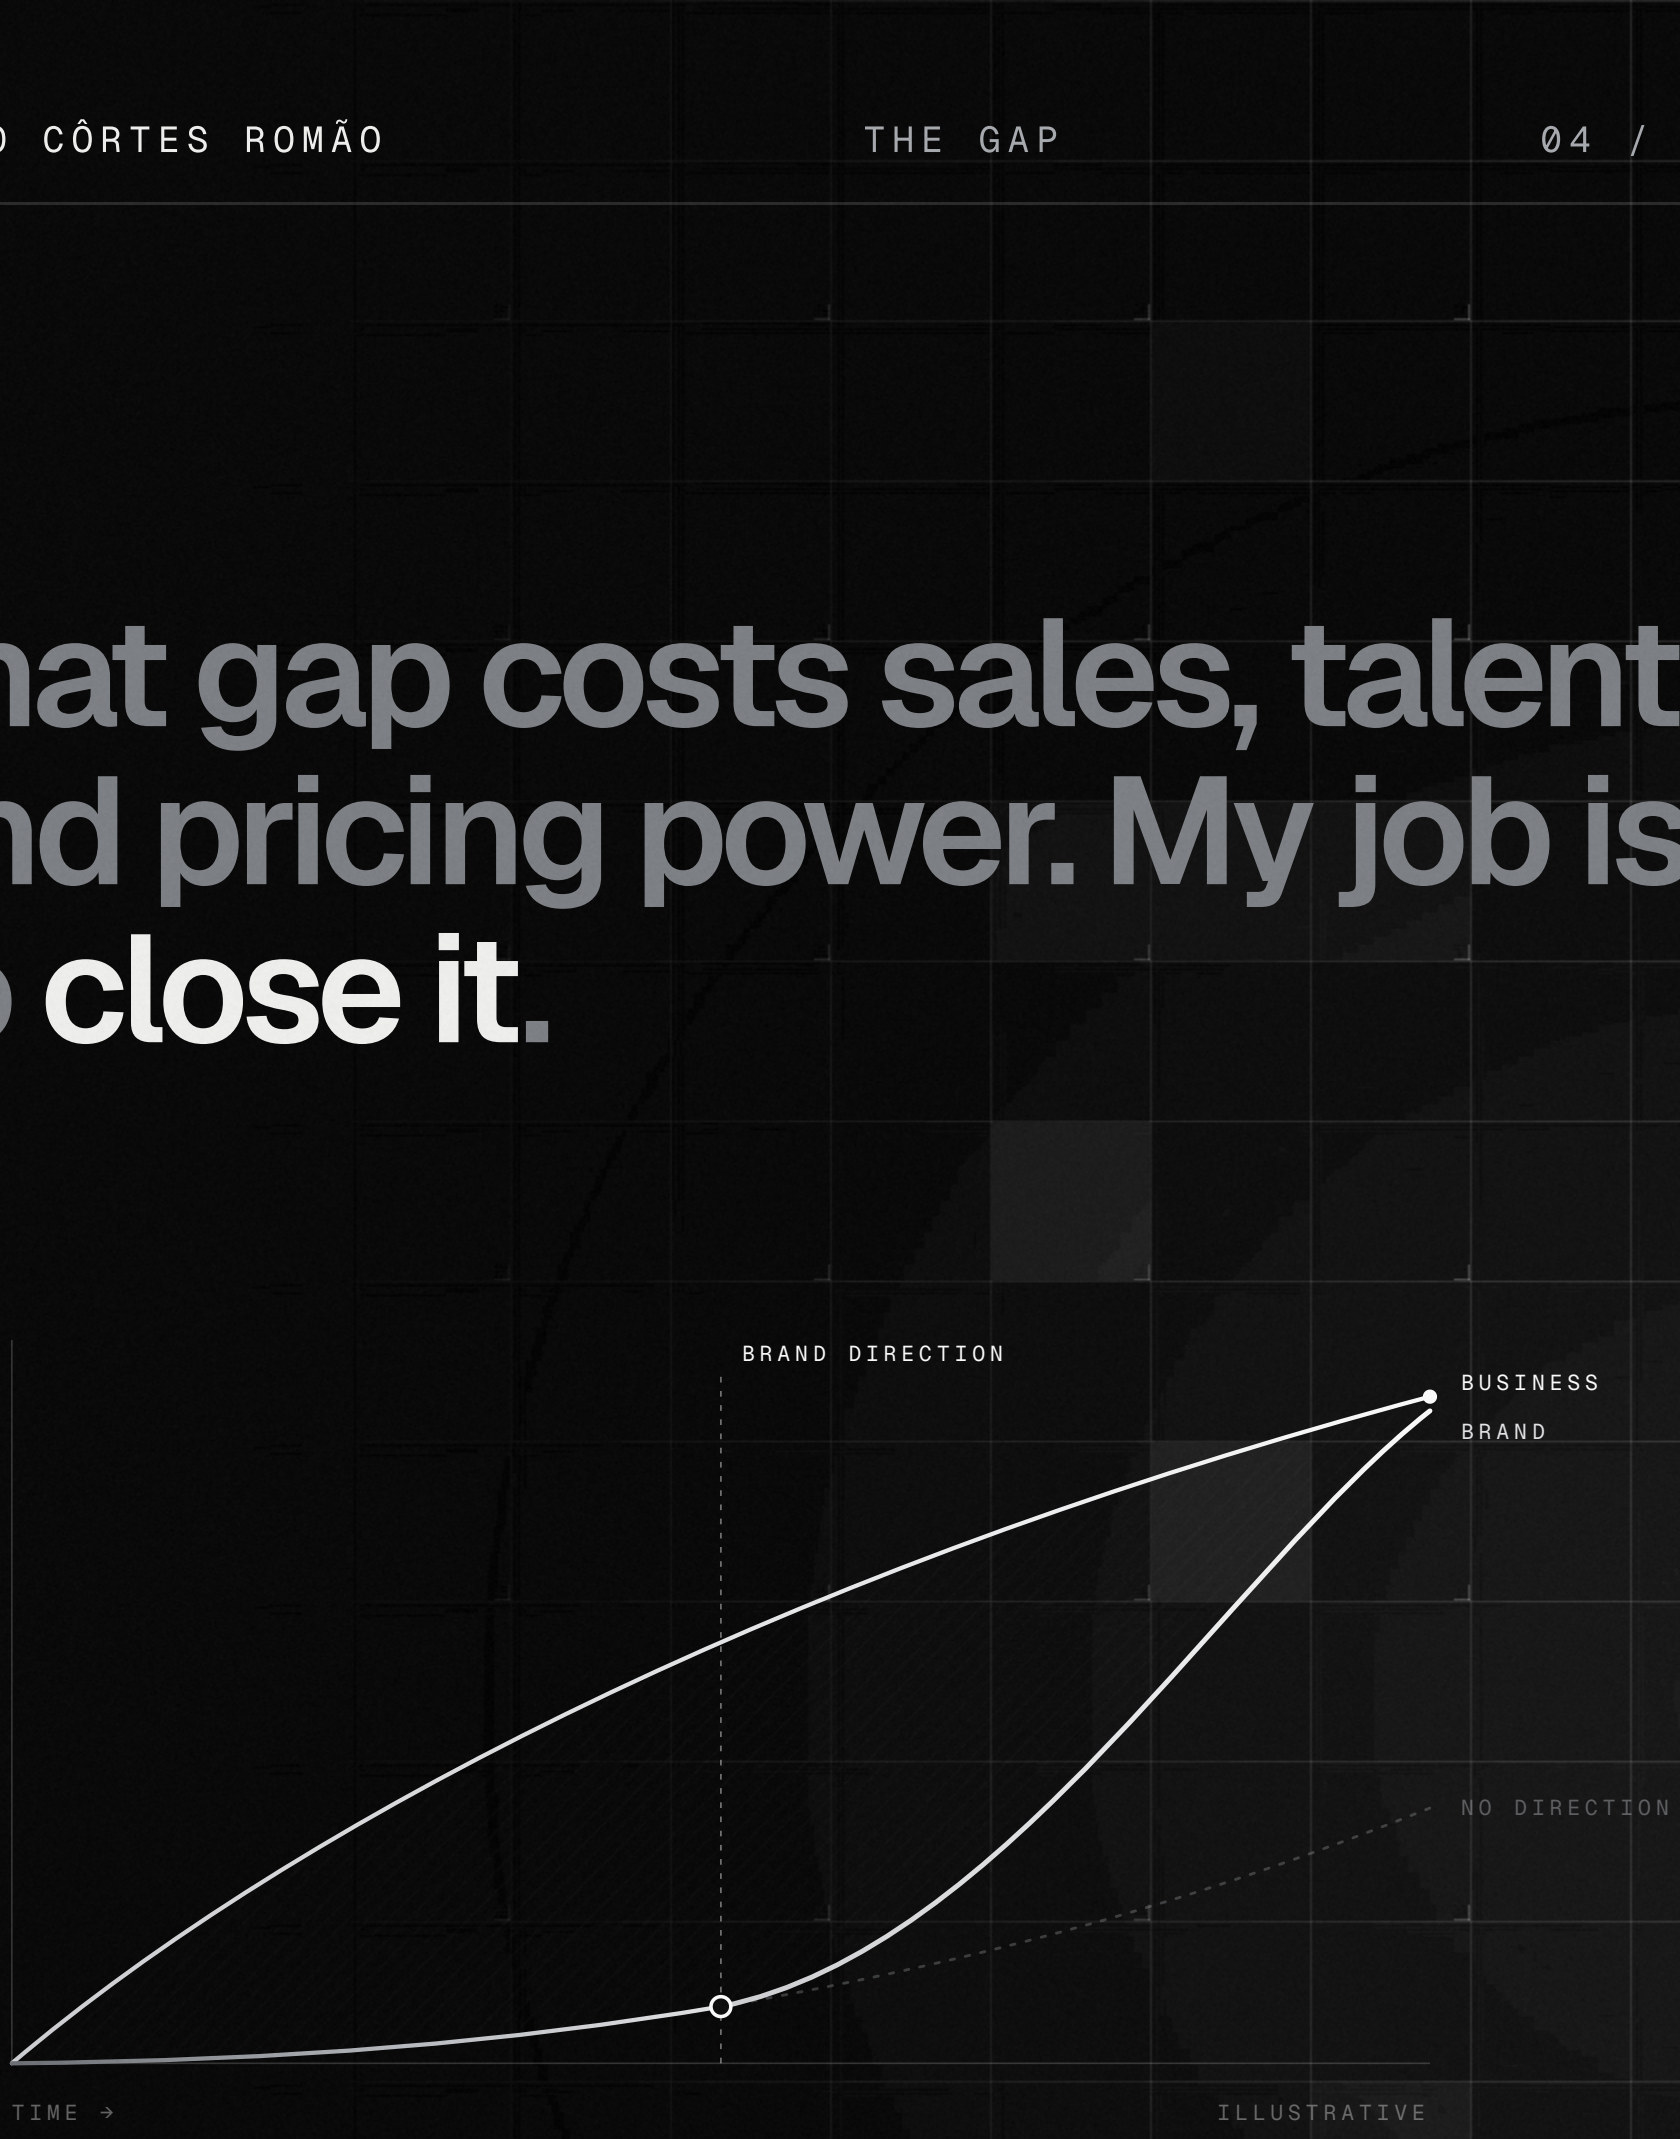

01 CHAPTER

The gap.

Every company that grows fast creates a gap between what it is and what it looks like.

That gap costs sales, talent and pricing power. My job is to close it.

Consistency is not aesthetics. It is what makes the market **trust** you.

ILLUSTRATIVE

DIAGNOSIS

Have you ever said any of these?

01 “We are bigger than we look.”

02 “Clients don't get what we do the first time.”

03 “Every piece of ours looks like it came from a different company.”

04 “I have a designer and an agency. What's missing is someone deciding.”

None of these is solved with more deliverables. They are solved with direction.

02 CHAPTER

The model.

Senior brand and creative direction, inside your company, without the weight of an executive hire.

ONE OF THE FIRST FRACTIONAL BRAND & CREATIVE DIRECTORS IN BRAZIL

The same level as a big company's brand director, at the pace of your business.

I'm not a CMO. I don't run media, channels or acquisition. I take care of what makes all of that work: the brand.

THE FRACTIONAL MODEL

The market has changed. So has the way to lead a brand.

Fast-growing companies are bringing senior brand leadership in-house, without waiting months for a hire.

WHY THE MODEL

MARKET 1 / 6

Senior talent has changed shape.

Experienced directors are choosing to work with a few companies at a time. That level is now within your reach.

REPERTOIRE 3 / 6

A repertoire an in-house team doesn't have.

References from many markets, with the commitment of someone on the inside.

DIRECTION 5 / 6

What was missing in between.

An agency delivers a project. A hire delivers a position. Fractional delivers someone deciding, every month.

WHY WITH ME

YOUR TEAM 2 / 6

Already have an agency or a team? Even better.

I don't replace anyone. I give the direction that makes everyone work for the same brand.

CREATION 4 / 6

The one who shapes the strategy also creates.

Concepts, identity and campaigns come from the same hands that set the direction. Nothing gets lost along the way.

PRESENCE 6 / 6

Your brand doesn't wait in line.

I work with a few companies at a time. Yours has reserved space in my schedule and in my head, every month.

03 CHAPTER

The work.

Strategy without execution becomes a PDF. Execution without strategy becomes noise. I do both, and that is what turns a good idea into a real brand.

WHAT I DO

The level of direction of the big brands. Sized to your company.

01 **Brand strategy**

What the company stands for, who it exists for, what makes it hard to replace and how to tell that story.

02 **Creative direction**

Concepts, visual language and campaigns that turn strategy into something people see and remember.

03 **Execution**

I create the priority pieces and direct teams and suppliers, from brief to approval.

04 **Ongoing guidance**

I review, adjust and reorder priorities as the business changes. The brand keeps evolving month after month, together with the company.

WHAT CHANGES

The value that already exists, finally visible.

~~The brand kept up with the beginning, but not with the growth.~~

→ **A truly built brand, made to help the business grow.**

~~The brand looks smaller than the company is.~~

→ **The brand is finally the size of the business.**

~~Clients compare you on price.~~

→ **Clients see the value before they ask the price.**

~~The founder approves even the posts.~~

→ **The founder gets back to running the business.**

HOW IT WORKS

A method of my own. Made for those who have no time to waste.

06 · PARTNERSHIP

The longer we work together, the stronger your brand.

The proof.

Throughout my career, in agencies, studios, companies and independent projects.

YEARS OF
EXPERIENCE

ABOUT · THE ONE WHO WILL TAKE CARE OF YOUR BRAND.

I grew up surrounded by words and stories.

Along the way, I had the chance to learn and work alongside professionals who helped build brands like Nubank, XP Investimentos, Mercado Livre, Itaú Digital and many other giants. That's where I learned that branding isn't about a pretty logo. It's about making the market see the value a company already has.

Creativity, data and technology, in the same hands.

CAREER

- Designer
- Design coordinator
- Marketing director
- Digital marketing & growth
- **Fractional Brand & Creative Director**

“But today I can do this with AI.”

It can generate. It can't decide.

AI has never paid a bill at the end of the month.

Never hugged someone after a hard day.

Never felt the silence at the top of a mountain.

Never watched a brand win, or lose, people's trust.

With AI, everyone produces more. That's why what matters now is knowing what not to produce.

ON DEMAND

One-off projects.

Not every brand needs to start with a partnership. For projects with a clear beginning, middle and end, I take on work from brand to technology, with the same level of direction. Many partnerships started exactly this way.
