Your brand, as big as your growth.

A MESSAGE FROM BRENO CÔRTES ROMÃO

A brand is not what a company says about itself. It is what stays in people's minds after you leave the room.

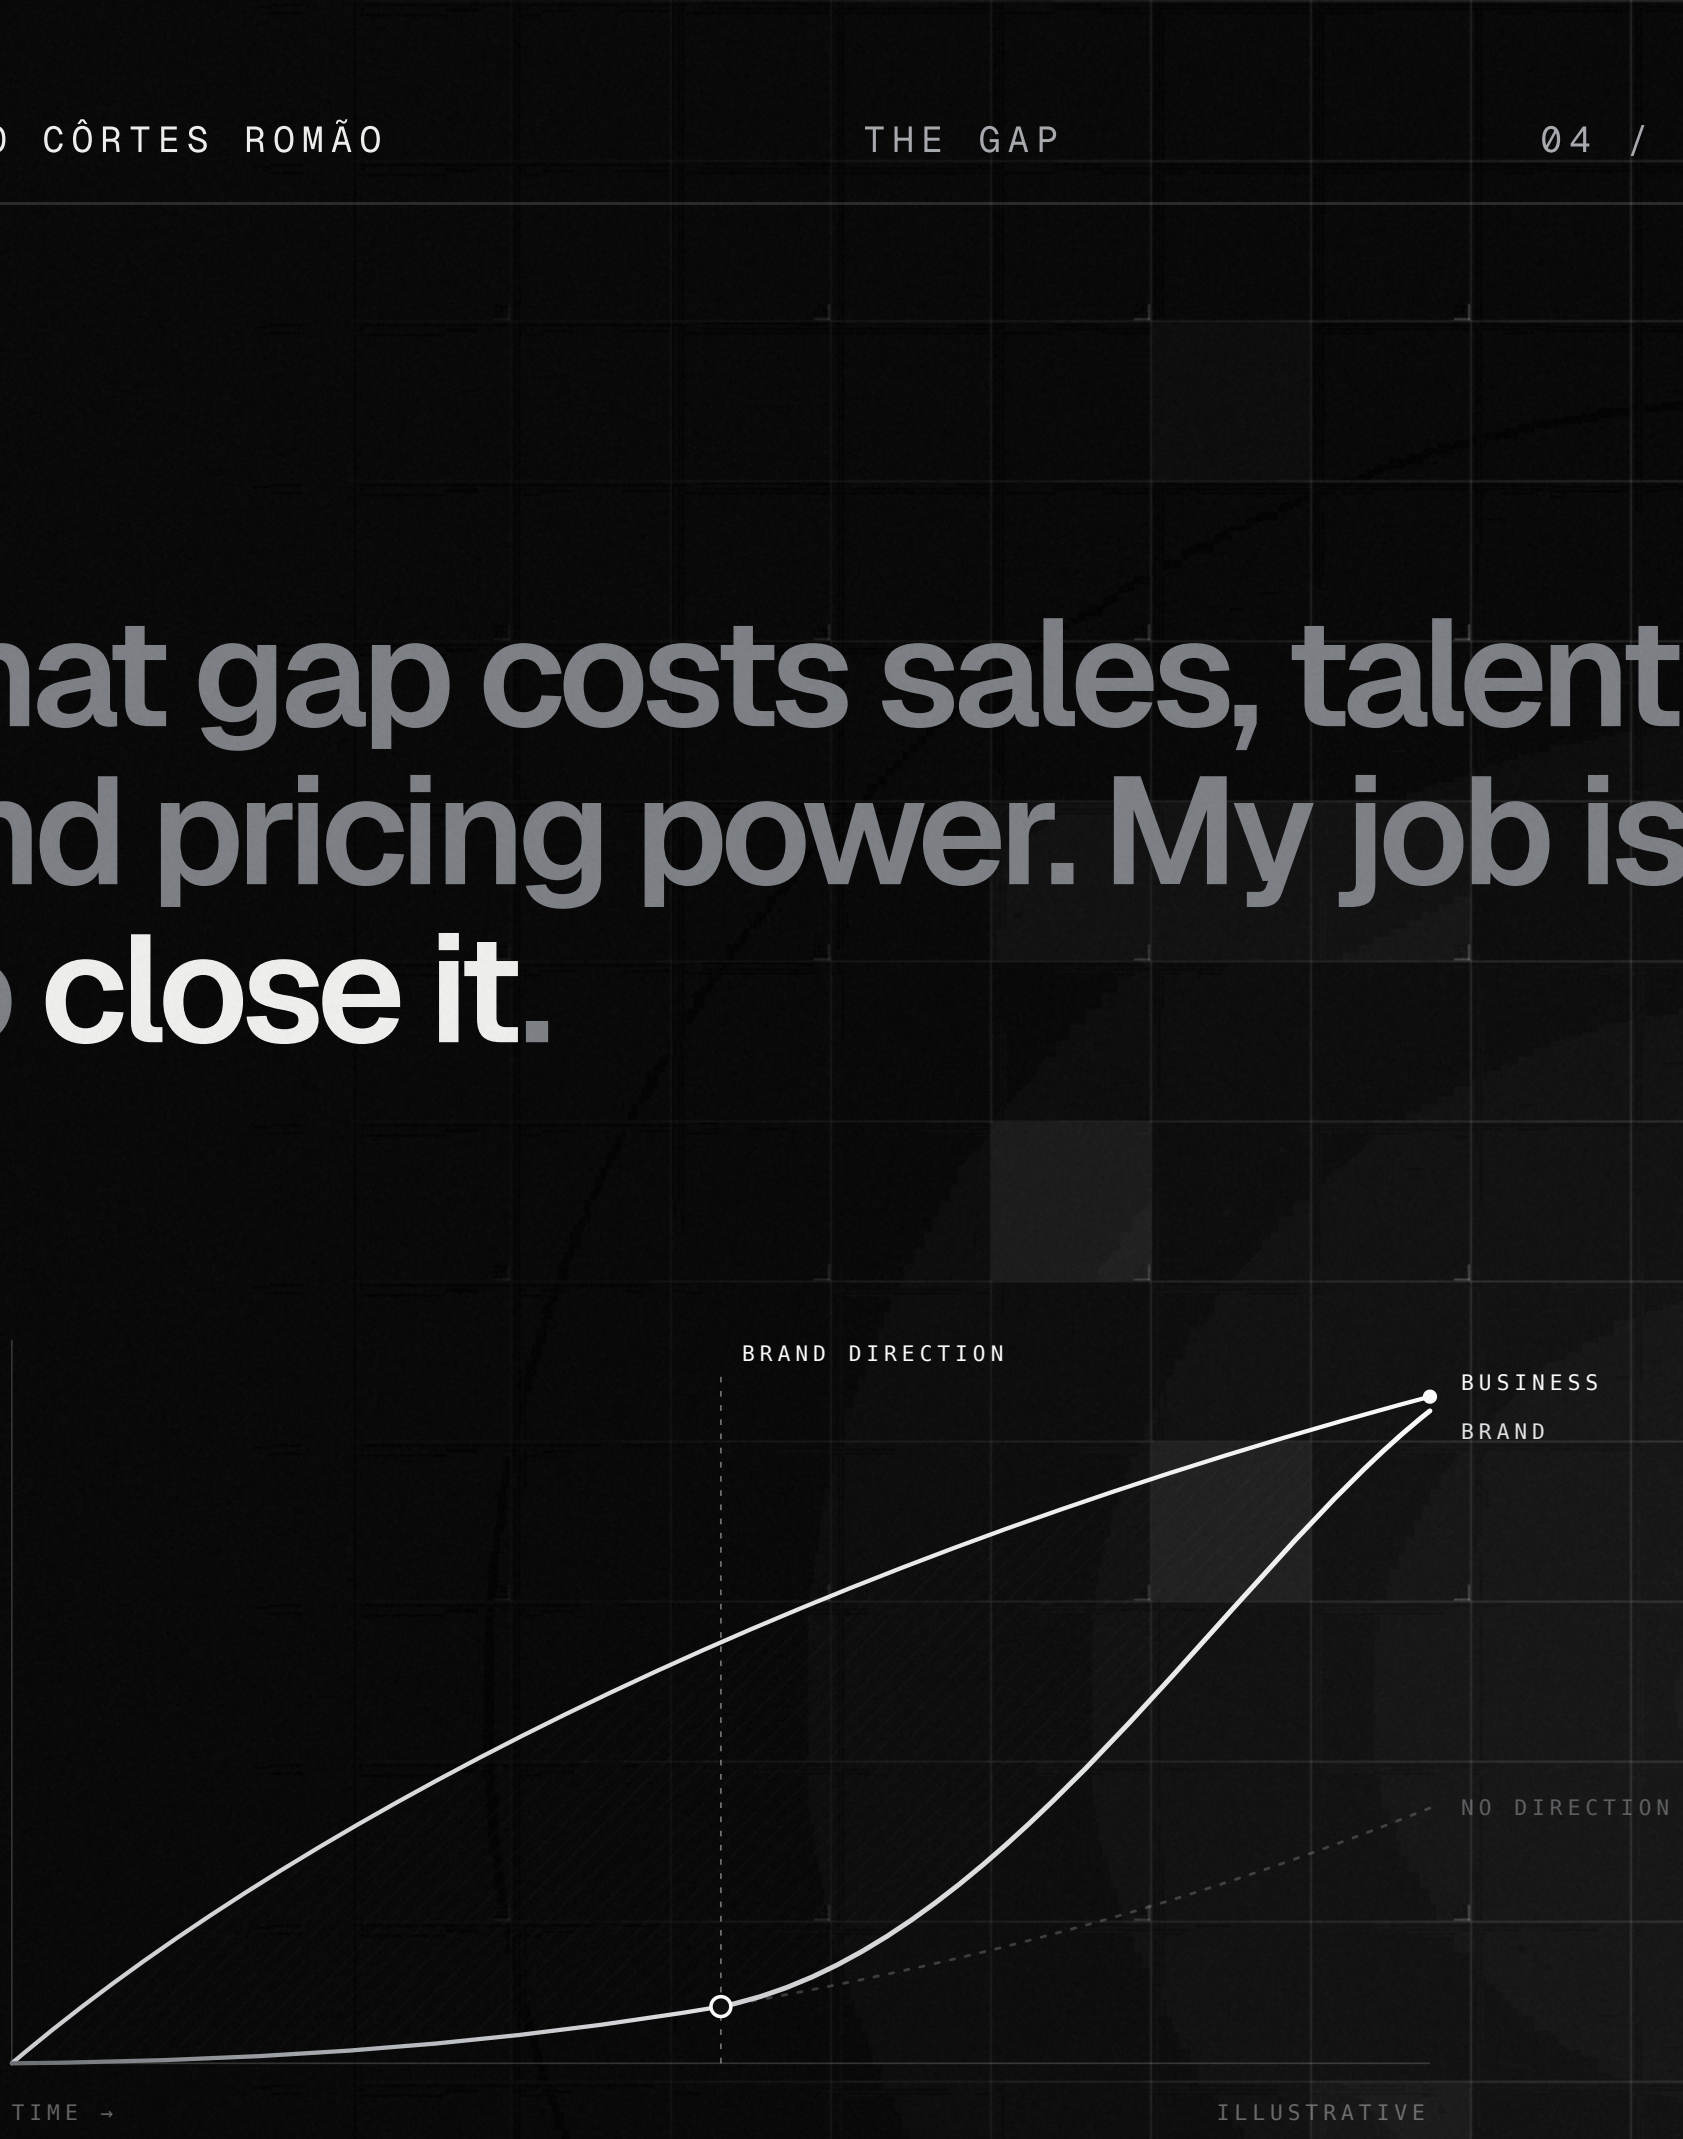

01 CHAPTER

The gap.

Every company that grows fast creates a gap between what it is and what it looks like.

That gap costs sales, talent and pricing power. My job is to close it.

Consistency is not aesthetics. It is what makes the market **trust** you.

ILLUSTRATIVE

DIAGNOSIS

Have you ever said any of these?

01 “We are bigger than we look.”

02 “Clients don't get what we do the first time.”

03 “I have a designer and an agency. What's missing is someone deciding.”

04 “Everything goes through me. Even the posts.”

None of these is solved with more deliverables. They are solved with direction.

02 CHAPTER

The model.

Senior brand and creative direction, inside your company, without the weight of an executive hire.

WHAT FRACTIONAL MEANS

Senior brand leadership, sized to where you are now.

An experienced brand and creative director is expensive and, for many companies, still doesn't make sense full time. In the fractional model, you get that leadership embedded in your team, taking part in decisions every month, with an agreed commitment and without the cost of a permanent executive hire.

I'm not a CMO. I don't run media, channels or acquisition. I take care of what makes all of that work: the brand.

A model growing fast around the world.

I was one of the first to bring it to Brazil, and I work with companies wherever they are.

fractional professionals worldwide since 2019

97%
of fractional roles in the US come from small and mid-sized companies

And it's not just for multinationals. It's the model for companies that are growing and need senior leadership without growing the team.

THE FRACTIONAL MODEL

How fractional works in practice.

VIEW OF THE BUSINESS	Continuous, with an outside eye and an inside commitment
WHO DECIDES THE BRAND	A senior director by your side, every month
INVESTMENT	Monthly and predictable, with no hiring cost
CONTINUITY	Grows with every month of partnership
SENIORITY	Senior from day one
GETTING STARTED	Straight away, from the first conversation

03 CHAPTER

The work.

Strategy without execution becomes a PDF. Execution without strategy becomes noise. I do both, and that is what turns a good idea into a real brand.

WHAT I DO

The level of direction of the big brands. Sized to your company.

01 **Brand strategy**

What the company stands for, who it exists for, what makes it hard to replace and how to tell that story.

02 **Creative direction**

Concepts, visual language and campaigns that turn strategy into something people see and remember.

03 **Execution**

I create the priority pieces and direct teams and suppliers, from brief to approval.

04 **Ongoing guidance**

I review, adjust and reorder priorities as the business changes. The brand keeps evolving month after month, together with the company.

WHAT CHANGES

The value that already exists, finally visible.

~~The brand kept up with the beginning, but not with the growth.~~

→ **A truly built brand, made to help the business grow.**

~~The brand looks smaller than the company is.~~

→ **The brand is finally the size of the business.**

~~Clients compare you on price.~~

→ **Clients see the value before they ask the price.**

~~The founder approves even the posts.~~

→ **The founder gets back to running the business.**

HOW IT WORKS

A method of my own. Made for those who have no time to waste.

01	LISTENING	Conversation
02	DISCOVERY	Diagnosis
03	DECISION	Plan
04	BUILDING	Ongoing direction
05	CYCLE	Evolution

06 · PARTNERSHIP

The longer we work together, the stronger your brand.

04 CHAPTER

The proof.

Throughout my career, in agencies, studios, companies and independent projects.

YEARS OF
EXPERIENCE

ABOUT · THE ONE WHO WILL TAKE CARE OF YOUR BRAND.

I grew up surrounded by words and stories.

Along the way, I had the chance to learn and work alongside professionals who helped build brands like Nubank, XP Investimentos, Mercado Livre, Itaú Digital and many other giants. That's where I learned that branding isn't about a pretty logo. It's about making the market see the value a company already has.

Creativity, data and technology, in the same hands.

CAREER

- Designer
- Design coordinator
- Marketing director
- Digital marketing & growth
- **Fractional Brand & Creative Director**

“But today I can do this with AI.”

It can generate. It can't decide.

AI has never paid a bill at the end of the month.

Never hugged someone after a hard day.

Never felt the silence at the top of a mountain.

Never watched a brand win, or lose, people's trust.

With AI, everyone produces more. That's why what matters now is knowing what not to produce.

ON DEMAND

One-off projects.

Not every brand needs to start with a partnership. For projects with a clear beginning, middle and end, I take on work from brand to technology, with the same level of direction. Many partnerships started exactly this way.
